Deutscher Bundestag **Drucksache 17/4000**
17. Wahlperiode 30. 11. 2010

Unterrichtung
durch die Bundesregierung

Bericht des Bewertungsausschusses über die Entwicklung der Vergütungs- und Leistungsstruktur in der vertragsärztlichen Versorgung für das 1. bis 4. Quartal 2009

und

Stellungnahme der Bundesregierung

Inhaltsverzeichnis

Zugeleitet mit Schreiben des Bundesministeriums für Gesundheit vom 26. November 2010 gemäß § 87 Absatz 3a des Fünften Buches Sozialgesetzbuch.

Stellungnahme der Bundesregierung

1. Vorbemerkung

Seit dem 1. Januar 2009 gilt ein neues Vergütungssystem in der ambulanten vertragsärztlichen Versorgung. Die von Budgets und floatenden Punktwerten geprägte Honorarsystematik wurde abgelöst durch eine Euro-Gebührenordnung. Diese sieht – für den hausärztlichen und den fachärztlichen Bereich nach unterschiedlichen Kriterien entwickelt – Pauschalvergütungen in Kombination mit einer überschaubaren Zahl von Einzelvergütungen vor. Die rechtliche Umsetzung erfolgt in § 87a Absatz 1 des Fünften Buches Sozialgesetzbuch (SGB V). Die zuvor nach § 82 Absatz 2 und § 85 Absatz 2 SGB V geregelten kassenartenbezogenen Gesamtvertragsbeziehungen wurden für das vertragsärztliche Vergütungssystem herausgelöst und in eine einheitlich und gemeinsam abzuschließende Vergütungsvereinbarung umgestellt.

Mit der zum 1. Januar 2009 begonnenen Honorarreform wurde somit ein Kurswechsel eingeleitet. Das System der Kopfpauschalen wurde abgelöst und die Vertragsärztinnen und -ärzte können für alle ihre erbrachten Leistungen erstmals feste Preise in Euro und Cent auf der Grundlage eines bundeseinheitlichen Orientierungspunktwertes abrechnen. Allerdings unterliegen sie für einen Teil ihrer erbrachten Leistungen einer bundesweit durch den Bewertungsausschuss für ärztliche Leistungen beschlossenen Mengensteuerung über sogenannte Regelleistungsvolumen und seit dem 1. Juli 2010 auch mittels qualifikationsgebundener Zusatzvolumen.

Mit dem Gesetz zur Änderung arzneimittelrechtlicher und anderer Vorschriften vom 17. Juli 2009 (15. AMG-Novelle) wurde der Bewertungsausschuss verpflichtet, dem Bundesministerium für Gesundheit (BMG) vierteljährlich vorläufige und endgültige Daten und Berichte zur aktuellen Entwicklung der Vergütungs- und Leistungsstruktur in der vertragsärztlichen Versorgung im Quartal (Quartalsbericht) zu übermitteln (§ 87 Absatz 3a Satz 2 SGB V). Gleichzeitig wurde die schon zuvor bestehende Verpflichtung, dem BMG zum gleichen Thema einen zusammenfassenden Jahresbericht zu übermitteln, vom 31. Dezember auf den 30. Juni vorverlegt. Das BMG hat die Quartals- und Jahresberichte dem Deutschen Bundestag umgehend vorzulegen (§ 87 Absatz 3a Satz 4 SGB V).

Mit Schreiben vom 19. Juni 2009 hat das BMG – wie in § 87 Absatz 3a Satz 5 SGB V vorgesehen – gegenüber dem Bewertungsausschuss das Nähere zum Inhalt, Umfang und Zeitpunkt der Datenübermittlungen und Quartalsberichte und zum Inhalt des Jahresberichts bestimmt.

Daraufhin übermittelte die Kassenärztliche Bundesvereinigung (KBV) zum 28. August bzw. zum 4. September 2009 einen vorläufigen Quartals- und Jahresbericht. Allerdings war die Datenqualität nicht hinreichend. Zudem waren sie nicht so aufbereitet, dass sie in dieser Form an den Bundestag hätten übersandt werden können. Vor diesem Hintergrund hatte das BMG von einer Weiterleitung an den Deutschen Bundestag abgesehen. Darüber wurde der Präsident des Deutschen Bundestages mit Schreiben der damaligen Ministerin Ulla Schmidt von September 2009 informiert. Nach nochmaliger Aufforderung durch Herrn Bundesgesundheitsminister Dr. Philipp Rösler mit Schreiben vom 3. Dezember 2009 an die KBV, den GKV-Spitzenverband und das Institut des Bewertungsausschusses, alle organisatorischen und sonstigen Vorkehrungen zu treffen, um die angeforderten Daten so schnell wie möglich bereitzustellen, um der Berichtspflicht gegenüber dem Deutschen Bundestag nachkommen zu können, übermittelte die KBV mit Datum vom 17. Dezember 2009 dem BMG den Jahresbericht für 2008. Nach fachlicher Prüfung zeigte sich, dass der Bericht unvollständig war. Zudem ergaben sich zahlreiche offene Fragen und eine Reihe von Implausibilitäten. Schließlich legte die KBV mit Schreiben vom 10. Februar 2010 eine überarbeitete Fassung des Jahresberichts 2008 sowie mit Schreiben vom 15. Februar 2010 den Quartalsbericht für das erste Quartal 2009 vor; unter dem 15. April 2010 übersandte die KBV den Bericht für das zweite Quartal 2009 und mit Schreiben vom 28. Juni 2010 wurde vom Institut des Bewertungsausschusses der Quartalsbericht für das dritte Quartal 2009 dem BMG übermittelt.

Mit Datum vom 21. September 2010 übermittelte der Bewertungsausschuss den abgestimmten und vom Arbeitsausschuss des Bewertungsausschusses freigegebenen Quartalsbericht für das vierte Quartal 2009, der jeweils quartalsbezogen den Zeitraum vom ersten Quartal 2007 bis zum vierten Quartal 2009 umfasst, ohne dabei Jahressummen zu bilden. Erst dieser Bericht schien nach fachlicher Prüfung dem BMG für eine Weiterleitung an den Deutschen Bundestag vorbehaltlich etwaiger weiterer Korrekturen und Ergänzungen geeignet. Zur besseren Verständlichkeit wurde der übermittelte Bericht durch das BMG in Form dieser Erläuterungen benutzerfreundlich aufbereitet.

Auf der Grundlage dieser vom Bewertungsausschuss für ärztliche Leistungen nach § 87 Absatz 3a SGB V übermittelten Daten hat das BMG anhand ausgewählter Kennziffern Auswertungen bezüglich der Auswirkungen der seit Januar 2009 begonnenen Honorarreform für das Jahr 2009 auf einzelne Arztgruppen sowie auf Ebene der Kassenärztlichen Vereinigungen erstellt und in den vorliegenden Erläuterungen zum Datenbericht des Bewertungsausschusses zusammengestellt. Der dem BMG vom Bewertungsausschuss übermittelte Datenbericht umfasst rund 180 Seiten ausschließlich in tabellarischer Form ohne begleitende Kommentierung zu einzelnen Entwicklungen.

Die durch das BMG aufbereiteten Ergebnisse werden aus Gründen der Übersichtlichkeit und Transparenz auf folgenden Aggregationsebenen erläutert bzw. es wurden seitens des BMG für die Erläuterungen spezifische Schwerpunkte unter folgenden Aspekten gesetzt:

– Entwicklung des Honorars gesamt und je Arzt/Therapeut[1] nach Versorgungsbereichen, nach Arztgruppen und auf Ebene der Kassenärztlichen Vereinigungen

[1] Gemeint sind hier die Psychologischen Psychotherapeuten, einschl. Kinder- und Jugendlichenpsychotherapeuten (im Bericht des Bewertungsausschusses: nicht-ärztliche Psychotherapeuten), aus Gründen der Vereinfachung wird nachfolgend der Begriff „Therapeuten“ verwendet.

– Entwicklung der Anzahl der Ärzte/Therapeuten nach Arztgruppen und nach KV-Bereich

– Entwicklung der Anzahl der Behandlungsfälle je Arzt/ Therapeut

– Darstellung des Honorars je Behandlungsfall nach Versorgungsbereich, nach Arztgruppen und KV-Bereich

– Honorarentwicklung bei ärztlichen Berufsausübungsgemeinschaften (versorgungsbereichsübergreifende Gemeinschaftspraxen und Medizinische Versorgungszentren)

Die vorliegende Stellungnahme des BMG zu dem Datenbericht dokumentiert die für die Berichterstattung getroffenen Datengrundlagen und Festlegungen und fassen zentrale Analyseergebnisse auf Arztgruppenebene sowie auf KV-Ebene in tabellarischer Form mit begleitender Kommentierung zusammen unter 4. „Auswertungen“. Detailliertere Analyseergebnisse können dem beigefügten Datenbericht des Bewertungsausschusses entnommen werden.

2. Datengrundlagen

a) Grundsätzliche Bedeutung der Daten

Mit gesetzlichen Regelung in § 87 Absatz 3a SGB V soll die Transparenz über die Vergütungssituation der Vertragsärzte und die Ausgaben der Krankenkassen für vertragsärztliche Leistungen generell verbessert und eine sachgerechte Information des BMG sowie des Deutschen Bundestages zu den damit verbundenen Sachverhalten sichergestellt werden.

Eine sinnvolle Diskussion über die Weiterentwicklung der Honorarreform im Hinblick auf Verteilungsaspekte kann erst dann beginnen, wenn flächendeckende Daten zu den Auswirkungen der Honorarreform bezogen auf die einzelnen Regionen, Arztgruppen und Leistungsbereiche aus Abrechnungsdaten vor allem aus dem Jahr 2009 vorliegen. Diese Daten sind notwendig, um den Anpassungsbedarf erkennen und sowohl die finanziellen Effekte als auch Versorgungseffekte von bestimmten Maßnahmen sinnvoll einschätzen zu können. Für diesen Zweck sind vor allem auch die noch nicht vollständig vorliegenden Daten zu den Auswirkungen zur Mengensteuerung über Regelleistungsvolumen (Transparenzdaten) sowie der noch ausstehende Jahresbericht 2009, der über die Quartalsberichte hinaus weitere Daten enthält, zu berücksichtigen.

b) Umsetzung durch die Selbstverwaltung

Die vom Bewertungsausschuss übersandten Daten waren mit Beginn der ersten Datenlieferung unvollständig und implausibel. Zudem waren sie nicht so aufbereitet, dass sie in dieser Form an den Bundestag hätten übersendet werden können. Vor diesem Hintergrund hatte das BMG entschieden, von einer Weiterleitung dieser Datenberichte an den Deutschen Bundestag abzusehen. Die Vorlage der Berichte an den Deutschen Bundestag sollte erst dann erfolgen, wenn die Daten die erforderliche Datenqualität aufweisen und vollständig sind.

Darüber hinaus ist ein Hinweis der KBV zu beachten, wonach der Datenaustausch mit den Kassenärztlichen Vereinigungen und damit auch die von der Kassenärztlichen Bundesvereinigung betreute Abrechnungsstatistik[2] keine periodengerechte Darstellung der Kennzahlen gestatten. Nachvergütungen der Krankenkassen oder Änderungen der Honorarbescheide (z. B. Nachvergütungen an den einzelnen Arzt in Folge einer Erhöhung seines Regelleistungsvolumens wegen Praxisbesonderheiten aufgrund eines Individualantrages oder die Gewährung einer Ausgleichszahlung wegen überdurchschnittlicher Honorarverluste) werden immer in dem Quartal erfasst, in dem sie auftreten. Die nachträgliche Herstellung eines Bezugs auf das Abrechnungsquartal ist nicht vorgesehen. Auch werden Ergebnisse aus Prüfungsmaßnahmen nach den §§ 106 und 106a SGB V nicht in die Analyse einbezogen, was allerdings die Ergebnisse nicht entscheidend verändern dürfte. Aus diesen Gründen können Unterschiede zwischen den Honorar- und Gesamtvergütungsbetrachtungen bzw. zwischen den Angaben der KBV und den Kassenärztlichen Vereinigungen entstehen. Ebenfalls ist aus diesen Gründen ein Vergleich der kassen- und arztseitigen Rechnungslegung miteinander nicht sachgerecht und mithin nicht zulässig.

Die Darstellung der Entwicklung der Vergütungs- und Leistungsstruktur in der vertragsärztlichen Versorgung kann deshalb sachgerecht nur auf der Grundlage der arztseitigen Rechnungslegung erfolgen.

Des Weiteren ist zu berücksichtigen, dass sich mit der Honorarreform nicht nur die Vergütungssystematik der Vertragsärzte und -therapeuten geändert hat, sondern auch die Kassenärztlichen Vereinigungen ihren gesamten Abrechnungsprozess anpassen mussten. Dies galt auch bereits für andere teils gravierende Änderungen in der Abrechnungs- und Honorarsystematik, vor allem die Umsetzung des Vertragsarztrechtsänderungsgesetzes (VÄndG). Oftmals müssen auch von den Kassenärztlichen Vereinigungen kurzfristig von der Selbstverwaltung getroffene Entscheidungen umgesetzt werden, was zu Problemen bei Datenlieferungen führen kann, insbesondere auch zu nicht einheitlichen Datenlieferungen. Dies wird teils noch verschärft durch die durch den Bewertungsausschuss beschlossene Konvergenzphase mit entsprechenden Spielräumen für die Landesebene. Insofern sind auch in Folgeberichten mögliche Korrekturen der Daten nicht auszuschließen.

c) Datenlieferung

Grundlage der quartalsweise und jährlich zu erstellenden Berichte sind die Abrechnungszahlen der Kassenärztlichen Vereinigungen, die diese an die KBV übermitteln.

[2] Das Institut des Bewertungsausschusses erhält die Abrechnungsdaten in teils aggregierter Form zur weiteren Aufbereitung von der Kassenärztlichen Bundesvereinigung.

Erstellt und aufbereitet werden die Berichte ab dem Quartalsbericht für das dritte Quartal 2009 durch das Institut des Bewertungsausschusses. Das Institut erhält hierzu die erforderlichen Datenlieferungen von der KBV auf der Grundlage eines Beschlusses des Bewertungsausschusses, der Näheres zu den Inhalten, Formaten, Lieferterminen und Übermittlungswegen dieser Datenlieferungen festlegt.

Der vom Institut erstellte und im Namen des Bewertungsausschusses dem BMG im September 2010 übermittelte Datenbericht umfasst Daten für die Quartale des ersten Quartals 2007 bis einschließlich des vierten Quartals 2009 und enthält folgende Tabellen:

Tabelle 1 Summe der Gesamtvergütungen 20071 bis 20094

Tabelle 2 Summe Gesamtvergütungen je Mitglieder 20071 bis 20094

Tabelle 3 Summe Gesamtvergütungen je Versicherten 20071 bis 20094

Tabelle 4 Saldo Fremdkassenzahlungsausgleich 20071 bis 20094

Tabelle 5 Kennzahlen Zugelassene 2007 bis 20094

Tabelle 6 Überblickstabellen Zugelassene 20071 bis 20094

Tabelle 7 Ermächtigte Teilnahmestatus 20071 bis 20094

Tabelle 8 Kostensätze ZI und destatis 20071 bis 20094

Tabelle 9 Überschuss je Arzt GKV 20071 bis 20094

Tabelle 10 Summe zurückbehaltener Beträge 20094 (unvollständig)

Tabelle 11 Bereinigung der Gesamtverträge durch Selektivverträge 20091 bis 20094

Tabelle 12 Auswertung zur Mengensteuerung über RLV 20094 (unvollständig)[3]

Tabelle 17 Kennzahlen alle Ärzte 20071 bis 20094

Die dem BMG übermittelten Daten sind durch das neutrale Institut des Bewertungsausschusses auf der Grundlage der oben genannten Datenlieferungen der Kassenärztlichen Bundesvereinigung erstellt und plausibilisiert sowie durch die Trägerorganisationen des Bewertungsausschusses und damit sowohl ärzte- als auch kassenseitig freigegeben worden. Deshalb geht das BMG von einer beidseitigen Akzeptanz und hinreichender Verlässlichkeit der berichteten Daten aus. Auch wenn der Quartalsbericht für das vierte Quartal 2009 nach wie vor unvollständig ist, insbesondere fehlen flächendeckende Daten zu den Auswirkungen der Mengensteuerung über Regelleistungsvolumina, und teils weiterhin Implausibilitäten (z. B. bezüglich der Arztzahlsteigerungen im Jahr 2008[4]) enthält, hat das BMG dennoch entschieden, die vom Bewertungsausschuss übermittelten Daten benutzerfreundlich aufzubereiten und nunmehr dem Deutschen Bundestag für alle vier Quartale des Jahres 2009 im Vergleich zu den Jahren 2007 und 2008 in Form dieser Erläuterungen unter den auf Seite 3 gelisteten Fragestellungen zusätzlich zu dem Bericht des Bewertungsausschusses zur Verfügung zu stellen. Da inzwischen für alle vier Quartale des Jahres 2009 quartalsbezogene Daten vorliegen, können nunmehr wesentliche Kennzahlen aus dem Bericht verwendet und Ergebnisse daraus im Sinne von Trendaussagen zur Honorar- und Arztzahlentwicklung berichtet werden.

Der Jahresbericht für 2009, der über die Quartalsberichte hinausgehende Daten enthält, wird dem BMG voraussichtlich im Dezember 2010 zur Verfügung gestellt.

Die in den Tabellen dargestellten Honorare wurden berechnet nach (quartalsgleicher) sachlich-rechnerischer Richtigstellung durch die Kassenärztlichen Vereinigungen sowie nach Anwendung der mengenbegrenzenden Regelungen (Regelleistungsvolumen) und den angewendeten Konvergenzregelungen sowie unter Berücksichtigung des Fremdkassenzahlungsausgleiches. Die Honorare enthalten die an alle vertragsärztlich tätigen und ermächtigen Ärzte sowie Psychotherapeuten und ärztlich geleiteten Einrichtungen ausgezahlten Honorare für die im Zusammenhang mit der Behandlung von Patientinnen und Patienten anerkannten Leistungen zu Lasten der gesetzlichen Krankenversicherung (Primär-, Ersatzkassen). In diesen Summen sind die Einnahmen aus Kassen-Zuzahlungen der Patienten (z. B. Praxisgebühr, Zuzahlung bei Heilmittelabgabe in der Praxis), die mit dem Honorar der Ärzte verrechnet werden, bereits berücksichtigt. Zudem umfassen die ausgewiesenen Honorardaten sowohl die Vergütungsanteile für Leistungen, die aus der morbiditätsbedingten Gesamtvergütung als auch aus der extrabudgetären Gesamtvergütung (z. B. Präventionsleistungen) bezahlt werden. Zu den letzteren gehören vor allem auch die ab 2008 neu in den GKV-Leistungskatalog aufgenommenen Leistungen, wie beispielsweise Beratung zur Früherkennungsuntersuchung (zum 1. Januar 2008), Hautkrebs-Screening (zum 1. Juli 2008), Kostenpauschalen für die Verordnung der spezialisierten ambulanten Palliativversorgung (zum 1. April 2009) und die Kostenpauschalen für ärztlich angeordnete Hilfeleistungen anderer Personen[5] (zum 1. April 2009).

---

[3] Vollständige und in sich stimmige Daten bzw. in sich stimmige Daten, in denen nur vereinzelt Angaben fehlen, aus dem Transparenzbeschluss (Bewertungsausschuss in seiner 183. Sitzung am 30. April 2009) liegen für drei der 17 KVen vor. Diese wurden in dem Datenbericht ausgewiesen. Für die übrigen 14 KVen fehlen Angaben vollständig oder die berichteten Daten sind nicht hinreichend plausibel. Deshalb können keine Aussagen zur Mengensteuerung im Einzelnen, Rückstellungen der KVen etc. gemacht werden.

[4] Beispielhaft seien hier die im Datenbericht aufgeführten Zahlen zu den Leistungserbringern genannt:
Hier fällt nach wie vor auf, dass es in einer Reihe von KVen im Vergleich der Jahre 2007 und 2008 zu einer erheblichen Erhöhung der Zahl der Leistungserbringer gekommen ist, die so nicht mit der tatsächlichen Entwicklung (lt. KBV Ärztestatistik) übereinstimmt, sondern die vor allem „statistisch“ bedingt ist und sich daraus ergibt, dass einige KVen im Zeitablauf offenbar die Datensystematik geändert haben.

[5] Diese Kostenpauschalen werden nach Mitteilung der KBV derzeit ausschließlich in den neuen Bundesländern abgerechnet.

3. Festlegungen

Um die Wirkungsweise bzw. die Auswirkungen der zum 1. Januar 2009 begonnenen Honorarreform mit Euro-Gebührenordnung und Regelleistungsvolumen zur Mengensteuerung der ärztlichen Leistungen auf die ärztlichen Honorare und damit auf die Vergütung der Ärzte mit den unter Nummer 2. a) genannten Einschränkungen darzustellen, werden ausgewählte Kennziffern (Honorar gesamt, Honorar je Arzt, Arztzahlen, Fallzahlen je Arzt) der Quartale des Jahres 2009 insgesamt denen der Jahre 2007 und 2008 gegenübergestellt mit Ausweis der jeweiligen Veränderungsraten.

Da der vorgelegte Quartalsbericht für das vierte Quartal 2009 ausschließlich für die Quartale 1/2007 bis 4/2009 quartalsbezogene Daten ausweist und keine Jahresdaten, hat das BMG für die vorliegenden Erläuterungen die jeweiligen Quartalsdaten des betreffenden Jahres zusammengefasst. Bei der Angabe der Arztzahlen wurden die zusammengefassten Werte durch die Anzahl der Quartale dividiert, eine Gewichtung erfolgte nicht.

Nach Mitteilung der KBV ist es im ersten Quartal 2009 in mehreren KVen zu Überzahlungen gekommen. Die Begründung hierfür ist Folgende: Die KVen mussten nach dem Beschluss des Bewertungsausschusses Rückstellungen zur Vergütung bestimmter Leistungsbereiche auf der Grundlage von Daten aus Vorquartalen bilden (Vorwegabzüge). Wenn eine KV hierbei zu gering geschätzt hat, reichte das für das erste Quartal bereitgestellte Geld nicht aus, um die Leistungen der Vertragsärzte vereinbarungsgemäß zu vergüten. Die KVen schütteten folglich mehr Honorar aus als zur Verfügung stand. Dieses zusätzlich ausgeschüttete Geld fehlte in den Folgequartalen. Die Unterdeckung belief sich laut KBV auf rund 210 Mio. Euro. Deshalb sowie unter Berücksichtigung quartalsbezogener Schwankungen (Sommer-, Winterquartal) und den unter 2. c. (Seiten 6f.) genannten Gründen hat das BMG die Festlegung getroffen, die Daten der Quartale des Jahres 2009 zusammenzufassen und in diesen Erläuterungen entsprechend darzustellen.

Aus Gründen der Übersichtlichkeit wird die Kennziffer „Honorar gesamt“ in Mio. Euro kaufmännisch gerundet ausgewiesen.

Die Kennziffer „Honorar je Arzt“ weist das „durchschnittliche Honorar je Arzt für die Abrechnung von Leistungen zulasten der GKV“ aus.

Nachdem zunächst sehr global mittels der ausgewählten Kennziffern auf Ebene „zugelassene Ärzte“, „Psychologische Psychotherapeuten“ und „ermächtigte Ärzte“ Erläuterungen erfolgen, werden danach weiter differenziert Erläuterungen auf Ebene des Versorgungsbereiches (haus-, fachärztlich) und sodann auf Ebene der Arztgruppen und KV-Ebene gegeben. Unterhalb der Ebene KV-Bereich wird in den vorliegenden Erläuterungen nicht nach Arztgruppen differenziert, da offenbar die einzelnen KVen teils unterschiedliche Arztgruppenzuordnungen vorgenommen haben, insbesondere bei den fachärztlich tätigen Internisten mit/ohne Schwerpunkt sowie den „Sonstigen“. Teils wird zudem auch die Zahl der Ärzte einer Arztgruppe verzerrt durch die Zuordnung zu Berufsausübungsgemeinschaften in der Kooperationsform der fachgruppen- und versorgungsbereichsübergreifenden Gemeinschaftspraxen sowie Medizinischen Versorgungszentren, in denen tendenziell zunehmend mehr Vertragsärzte tätig werden.

Die Honorardaten wurden dem BMG bereits abzüglich der aufgrund von Selektivverträgen (Hausarztverträge) erfolgten Bereinigungen übermittelt, wobei die Bereinigungsbeträge der Quartale für das Jahr 2009 gesondert ausgewiesen wurden. Von den Bereinigungen sind vornehmlich die KVen Baden-Württemberg und Bayerns betroffen. Es werden in den vorliegenden Erläuterungen die Daten wie vorgelegt und damit unter Abzug der Bereinigungsbeträge ausgewiesen. In einer gesonderten Tabelle (vgl. Tab. 24) werden für die beiden vorgenannten KV-Bereiche für den hausärztlichen Versorgungsbereich sowie „alte Bundesländer gesamt“ wesentliche Honorardaten vor und nach Bereinigung ausgewiesen. Aufgrund der sehr geringen Bereinigungsbeträge in 2009 bleibt die KV Berlin hiervon unberücksichtigt.

Eine Ausweisung bzw. Differenzierung der erwirtschafteten Honorare nach Leistungsbereichen oder auf Gebührennummernebene erfolgte in dem übermittelten Datenbericht nicht und ist somit auch nicht Gegenstand dieser Erläuterungen.

Die Kennziffer „Anzahl Ärzte“ umfasst auch angestellte Ärzte und zwar sowohl mit als auch ohne Anrechnung auf die Bedarfsplanung (Job-Sharing); gezählt wurden in dem vom Bewertungsausschuss übermittelten Datenbericht dabei „Köpfe“ und nicht „Stellen“, dies bedeutet, dass jeder Arzt mit dem Faktor = 1 berücksichtigt wurde, auch bei Teilzeitbeschäftigung oder bei hälftigem Versorgungsauftrag. Es wird allerdings jede LANR (lebenslange Arztnummer) zumindest ab dem 3. Quartal 2009 genau einmal pro Quartal berücksichtigt, auch wenn der Arzt in unterschiedlichen/mehreren Betriebsstätten bzw. Nebenbetriebsstätten tätig ist.

Aus Gründen der Übersichtlichkeit und besseren Verständlichkeit wird jede der ausgewählten Kennziffern (Entwicklung Honorar gesamt, Honorar je Arzt, Arztzahlentwicklung, Fallzahlentwicklung) jeweils in einer Tabelle dargestellt und mit weiteren Untergliederungen in gesonderten Tabellen. Hierdurch erhöht sich allerdings die Anzahl der Tableaus. In den nachfolgenden Tabellen werden diese Kennziffern nur für ausgewählte und damit nicht für alle Arztgruppen dargestellt, da andernfalls die Tabellen nicht mehr hinreichend lesbar gewesen wären. In den Honorarsummen sowie in den Durchschnittshonoraren je Arzt bzw. je (Behandlungs-)Fall sind die Honorare aller Ärzte eingeflossen, sofern nicht eine in den Tabellen ausgeführte Selektion (z. B. nur zugelassene Ärzte ohne ermächtigte Ärzte) erfolgt.

4. Auswertungen – Zusammenfassung der Ergebnisse

Ergebnisse im Überblick

– Das gesamte Honorar aller Vertragsärzte und Vertragspsychotherapeuten ist im Jahr 2009 gegenüber 2008 nach Bereinigung um selektivvertragliche Leistungen

um etwa 2,1 Mrd. Euro und gegenüber 2007 um rund 2,85 Mrd. Euro auf 28,74 Mrd. Euro (einschließlich ermächtigter Ärzte auf 29,5 Mrd. Euro) gestiegen (vgl. Tab. 1, 2). Dies bedeutet gegenüber 2008 eine Steigerung um 7,88 bzw. gegenüber 2007 um 10,97 Prozent.

– Dieser Zuwachs ist auch bei den vertragsärztlichen Leistungserbringern – wenn auch in unterschiedlicher Höhe – angekommen (vgl. Tab. 6, 7, 8, 10). Das Honorar je Arzt stieg bezogen auf alle zugelassenen Ärzte (ohne ermächtigte Ärzte) um durchschnittlich rund 5,1 Prozent bundesweit; die Psychologischen Psychotherapeuten[6] erzielten in 2009 gegenüber 2008 einen Honorarzuwachs in Höhe von bundesweit über 13 Prozent und gegenüber 2007 von über 14 Prozent (allerdings einschl. Nachzahlungen aus Vorquartalen, BSG-Urteil).

– Insgesamt gesehen stehen in 2009 mehr Ärztinnen und Ärzte (rund 5 bzw. rund 2 Prozent im Vergleich 2009 zu 2007 bzw. 2008) sowie Therapeutinnen und Therapeuten (rund 6 bzw. rund 2 Prozent im Vergleich 2009 zu 2007 bzw. 2008) zur Verfügung (vgl. Tab. 11, 12). Dabei ist die Zahl der Ärztinnen und Ärzte im hausärztlichen Bereich deutlich geringer gestiegen als im fachärztlichen Versorgungsbereich (vgl. Tab. 12, 13). So lag die Arztzahlveränderung bei den Hausärzten (einschließlich Kinder- und Jugendmediziner) in 2009 zu 2008 bei lediglich 0,23 Prozent, was fast einem Nullwachstum entspricht. Allerdings ist die Arztzahl im „Sonstigen Versorgungsbereich“ (u. a. Berufsausübungsgemeinschaften und Medizinische Versorgungszentren) mit rund +72 Prozent (2009 zu 2007) bzw. rund +55 Prozent (2009 zu 2008) enorm gestiegen, insbesondere in den neuen Bundesländern (vgl. Tab. 12). Hier betrug die Veränderung rund +247 Prozent. Diese Veränderung sagt allerdings nichts über die Verteilung bezogen auf Bedarfsplanungsgebiete aus. Auch ist zu berücksichtigen, dass mit Einführung des Vertragsarztrechtsänderungsgesetzes seit Anfang 2007 vielfältige Möglichkeiten ärztlicher Kooperationsformen wie insbesondere Teilzeitanstellungen von Ärztinnen und Ärzten bestehen. Anhand der durch den Bewertungsausschuss zur Verfügung gestellten Daten kann nicht festgestellt werden, in welchem Umfang Teilzeitanstellungen oder hälftige Versorgungsaufträge vorliegen; vielmehr handelt es sich wie bereits erwähnt um „Köpfe“ und nicht um Stellen (und damit um die Anzahl unterschiedlicher Arztnummern). Insofern kann aus der Arztzahlentwicklung nur eingeschränkt auf eine höhere Arztzahl geschlossen werden. Auffällig ist der deutliche Rückgang der Zahl der ermächtigen Ärzte, nämlich bundesweit rund -4 Prozent bzw. rund -7 Prozent im Vergleich 2009 zu 2007 bzw. zu 2008 (vgl. Tab. 11).

– In den ostdeutschen Bundesländern erwirtschaften die Vertragsärzte und Vertragstherapeuten durchschnittlich höhere Honorare je Arzt (in 2009 durchschnittlich +8,14 Prozent, zugelassene Ärzte und +15,0 Prozent, Vertragspsychotherapeuten; vgl. Tab. 6, 8, 10) mit Ausnahme bei den ärztlichen Kooperationsformen (vgl. Tab. 9). Dies geht einher mit deutlich höheren Fallzahlen je zugelassenem Arzt in den ostdeutschen Bundesländern (+20,08 Prozent in 2009 gegenüber den westdeutschen Bundesländern; vgl. Tab. 15, 16, 18), was mit der geringeren Arztdichte in den ostdeutschen Bundesländern korreliert. Dahingegen ist der Fallwert (Honorar je Fall) in den ostdeutschen Bundesländern (zugelassene Ärzte) um durchschnittlich etwa 5 Euro (rund 10 Prozent) niedriger, bezogen auf die Vertragstherapeuten ist das Honorar je Fall um etwa 20 Prozent in den westdeutschen Bundesländern höher (vgl. Tab. 19, 20, 23). In den alten Bundesländern werden damit pro Fall mehr Leistungen erbracht als in den neuen Bundesländern (vgl. dazu vor allem Tab. 23). Da eine Differenzierung nach Leistungsbereichen oder Gebührenordnungspositionen nicht vorliegt, können weitergehende Konkretisierungen diesbezüglich nicht getroffen werden. Unter Berücksichtigung der weitgehenden Pauschalierung der Leistungen, insbesondere im haus- sowie kinder- und jugendärztlichen Bereich, sagen die Unterschiede im Fallwert jedoch nichts über die Betreuungsintensität bzw. die Anzahl der Arzt-Patienten-Kontakte aus. Vermutlich werden in den alten Bundesländern überdurchschnittlich mehr spezialisierte und damit höher bepunktete Leistungen ambulant von Vertragsärzten erbracht als in den neuen Bundesländern.

– Mit rund 2,4 Mrd. Euro im Jahr 2009 – und damit ein höherer Betrag als der Honorarzuwachs in diesem Jahr – entfällt ein recht großer Honoraranteil auf den „Sonstigen Versorgungsbereich“ (vgl. Tab. 2), zu dem neben Medizinischen Versorgungszentren und versorgungsbereichsübergreifenden Berufsausübungsgemeinschaften u. a. auch Einrichtungen nach § 311 SGB V gehören sowie Fachwissenschaftler, Sonstige Leistungserbringer wie beispielsweise Notfalldienstärzte. Gleichzeitig ist aber auch die Zahl der Leistungserbringer in diesem Bereich überdurchschnittlich stark gestiegen, sodass das Honorar je Leistungserbringer in diesem Versorgungsbereich insgesamt gesehen dagegen deutlich rückläufig ist (vgl. Tab. 9).

– Während im Jahr 2009 gegenüber 2007 überdurchschnittliche Honorarzuwächse (vgl. Tab. 8) fachärztliche Internisten ohne Schwerpunkt (+86,73 Prozent), nicht-ärztliche Psychotherapeuten (+20,87 Prozent), Neurologen (+20,40 Prozent), Fachärzte für Nervenheilkunde und Psychiatrie sowie Kinder- und Jugendmediziner aber auch Humangenetiker (+40,86 Prozent), Strahlentherapeuten (+54,50 Prozent) und Pathologen (insbesondere im Vergleich 2009 zu 2008 mit +10,80 Prozent) im Durchschnitt verzeichnen konnten (vgl. Tab. 8, 9), sind bundesweit im Vergleichszeitraum 2009 zu 2007 negative Veränderungen bei Hals-, Nasen-, Ohrenärzten (-3,08 Prozent), Kardiologen[7] (-5,96 Prozent), Orthopäden[8] (-6,13 Pro-

[6] einschließlich Kinder- und Jugendlichenpsychotherapeuten

[7] Anhand der zur Verfügung stehenden Daten ist keine Differenzierung möglich zwischen invasiv tätigen und nicht-invasiv tätigen Kardiologen.

[8] Eine Differenzierung zwischen operativ (belegärztlich) und nicht-operativ tätigen Orthopäden ist nicht möglich, auch nicht hinsichtlich der Erbringung von Leistungen der Akupunktur.

zent) und Radiologen[9] (-3,17 Prozent) festzustellen, allerdings bei auch gleichzeitig zurückgehenden Arztzahlen (vgl. Tab. 3, 8, 13). Kritisch zu beurteilen ist dabei vor allem, dass bei den Hals-, Nasen-, Ohrenärzten bei einem bundesweit unterdurchschnittlichen Honorar je Arzt diese Kennziffer in 2009 gegenüber 2007 um 3,27 Prozent zudem abnimmt. Dieser Effekt könnte EBM-bedingt sein, denn auch der Fallwert (Honorar je Fall) ist in 2009 zu 2007 mit rund 3 Prozent rückläufig (vgl. Tab. 21). Im Vergleich 2009 zu 2008 verzeichnen auch Anästhesisten[10] einen Honorarrückgang von rund 0,9 Prozent, wohingegen sich das Honorar bei Kardiologen stabilisiert und mit 0,61 Prozent ein leichter Honoraranstieg zu verzeichnen ist, allerdings bei geringerem Ausgangswert in 2008 zu 2007. Alle anderen Arztgruppen haben Zuwächse in unterschiedlicher Höhe zu verzeichnen (ohne die Gruppe „Sonstige“; vgl. Tab. 3, 8).

– Überdurchschnittliche Zuwächse erzielten in 2009 gegenüber 2007 insgesamt 12 Kassenärztliche Vereinigungen, darunter Thüringen (+25,02 Prozent), Berlin und Sachsen-Anhalt (jeweils ca. 23,8 Prozent), Hamburg (+23,63 Prozent), Niedersachsen (+21,81 Prozent), Brandenburg und Sachsen (jeweils rund 20,5 Prozent). Der bundesdurchschnittliche Zuwachs lag in 2009 zu 2007 bei rund 11 Prozent und gegenüber 2008 bei rund 8 Prozent (vgl. Tab. 5).

– Fünf Kassenärztliche Vereinigungen liegen im Vergleich 2009 zu 2007 mit ihren Ergebnissen unter dem Bundesdurchschnitt, davon verzeichnet die KV Bayerns mit -2,78 Prozent sogar einen Verlust, die KV Baden-Württemberg mit 0,02 Prozent faktisch ein Nullwachstum. Bei diesen Kassenärztlichen Vereinigungen muss jedoch die Bereinigung der Gesamtvergütungen um Selektivvertragsleistungen berücksichtigt werden. Allein in Bayern beläuft sich dieser Betrag im Jahr 2009 auf rund 266,6 Mio. Euro, in Baden-Württemberg auf rund 84,8 Mio. Euro. Zum Vergleich: die Summe dieser Bereinigungsbeträge (rund 351 Mio. Euro) ist höher als die Gesamtvergütung des Jahres 2009 der KV Bremen (rund 340 Mio. Euro; vgl. Tab. 24).

– Für eine Bewertung der Auswirkungen der Honorarreform ist es nicht sachgerecht, ausschließlich die Entwicklung der Gesamtvergütungen in den Jahren 2009 zum Jahr 2008 zu vergleichen. Die Honorarreform des GKV-Wettbewerbsstärkungsgesetzes (GKV-WSG) war bereits im Laufe des Jahres 2008 umzusetzen und setzte deshalb auf den zu diesem Zeitpunkt aktuellen und validen Daten des Jahres 2007 auf. Nur insoweit war sicherzustellen, dass keine Kassenärztliche Vereinigung im Jahr 2009 Honorar verliert.

– Dieses Ziel wurde unter Berücksichtigung des bereinigten Honorarvolumens (vgl. Tabelle 24) um selektivvertragliche Leistungen in 2009 sowohl im Vergleich zu 2008 als auch zu 2007 in allen KV-Bereichen und somit auch in Baden-Württemberg und in Bayern erreicht. So ergibt sich bezogen auf alle zugelassenen Ärzte und Vertragstherapeuten (nicht-ärztliche Psychotherapeuten) für die KV Baden-Württemberg unter Einbeziehung des oben genannten Bereinigungsbetrages ein Honorarzuwachs von rund 2,40 Prozent (rund +85,5 Mio. Euro) im Vergleich 2009 zu 2007 bzw. rund 1,63 Prozent (rund +58,7 Mio. Euro) im Vergleich 2009 zu 2008. Ebenfalls stellt sich das Honorarergebnis für die KV Bayerns unter Einbeziehung des Bereinigungsvolumens deutlich besser dar. So kann bei dieser Betrachtung anstelle eines Negativ-Wachstums ein Honorarplus von rund 189 Mio. Euro (rund +3,01 Prozent) in 2009 bei Vergleich zu 2007 bzw. von rund 173 Mio. Euro (rund +3,78 Prozent) bei Vergleich zu 2008 verzeichnet werden (vgl. Tab. 24).

– Bei Berücksichtigung des bereinigten Honorarvolumens in den beiden KV-Bereichen Baden-Württemberg und Bayerns errechnet sich folglich auch ein höherer Honorarzuwachs für die alten Bundesländer (rund +10,8 Prozent statt 9,2 Prozent in 2009 zu 2007 bzw. rund 8 Prozent statt rund 6,5 Prozent zu 2008) und alle Bundesländer (rund +12,3 Prozent statt rund 11 Prozent in 2009 zu 2007 bzw. rund 9,2 Prozent statt rund 7,8 Prozent zu 2008). Gleichermaßen ergeben sich auch für den „hausärztlichen Versorgungsbereich“ deutlich höhere Honorarzuwächse, nämlich rund 7 (2009 zu 2007) bzw. rund 4,8 Prozent (2009 zu 2008) bezogen auf die alten Bundesländer (statt rund 3,2 bzw. rund 1 Prozent), was sich naturgemäß auf die Veränderungsraten „Gesamte Bundesrepublik“ entsprechend auswirkt (rund 8 bzw. rund 5,8 Prozent statt rund 4,8 bzw. rund 2,6 Prozent; vgl. Tab. 24).

– Neben den Effekten bedingt durch die Bereinigung der Gesamtvergütungen um selektivvertragliche Leistungen sind vor allem für den hausärztlichen Versorgungsbereich auch die Auswirkungen der seit dem vierten Quartal 2008 in Kraft getretenen ersten Stufe der neuerlichen Laborreform auf die Entwicklung der Honorare zu berücksichtigen. Zum 1. Oktober 2008 wurde die Direktabrechnung der Laborgemeinschaften mit den Kassenärztlichen Vereinigungen eingeführt, ab dem ersten Quartal 2009 wurde die Berechnungsgrundlage für den Labor-Wirtschaftlichkeitsbonus geändert. Diese Maßnahmen führen zu einem geänderten Volumen der erbrachten und abgerechneten Laboratoriumsuntersuchungen. Bis dahin hatten Ärzte, die eine Laborleistung bei einer Laborgemeinschaft in Auftrag gaben, diese auch gegenüber der Kassenärztlichen Vereinigung selbst abgerechnet. Das Honorar wurden diesen Ärzten bzw. der Arztgruppe gutgeschrieben, sie bezahlten mit dem Honorar die beauftragte Laborleistung. Seit Herbst rechnen die Laborgemeinschaften di-

---

[9] Hierbei ist zu berücksichtigen, dass viele Radiologen in fachübergreifenden Gemeinschaftspraxen mit Strahlentherapeuten und Nuklearmedizinern tätig sind; auch ist eine Differenzierung nach konventionell tätigen Radiologen und Radiologen mit/ohne MRT, CT nicht möglich,

[10] Der Rückgang könnte im Zusammenhang stehen mit der stärkeren Erbringung stationsersetzender Leistungen nach § 115b SGV an Krankenhäusern sowie des Rückganges anästhesiologischer Leistungen als GKV-Leitungen bei zahnmedizinischen und gastroenterologischen Eingriffen.

rekt mit der zuständigen Kassenärztlichen Vereinigung am Sitz der Gemeinschaft ab. Das Honorar wird nunmehr der „Arztgruppe“ Laborgemeinschaft (vgl. Tab. 4, 9) und nicht mehr dem Auftraggeber zugeordnet (im Jahr 2009 belief sich dieser Betrag bundesweit auf rund 142 Mio. Euro[11]). Dies wirkt sich insbesondere auf die Honorarzahlen des hausärztlichen Versorgungsbereiches aus. Die Honorardaten der Laborgemeinschaften sind in den Tabellen 4 und 9 dargestellt.

– Die Ermittlung der Höhe der Überschüsse ist abhängig davon, welche Kostensätze zugrunde gelegt werden. Offiziell sind dies noch die vom Zentralinstitut der KBV (ZI) erhobenen Kosten. Dem Bewertungsausschuss ist vorgegeben, „soweit möglich … bei der Festlegung der Indikatoren amtliche Indikatoren zugrunde zu legen …“. Amtliche Indikatoren sind die des Statistischen Bundesamtes (Destatis). Daher sind in dem beiliegenden Datenbericht des Bewertungsausschusses in Tabelle 8 beide Kostensätze für ausgewählte Arztgruppen sowie über „alle Leistungserbringer“ ausgewiesen. Die von Destatis ermittelten Kostensätze sind niedriger als die von ZI ausgwiesenen Kostensätze, weshalb der Überschuss je Arzt aus der GKV auf der Grundlage der Daten des Destatis rechnerisch höher liegen (siehe Tabelle 9 des beigefügten Datenberichts). Von Destatis werden regelmäßig alle drei Jahre Umsätze und Betriebskosten für alle Berufe ermittelt. Bezogen auf Arztgruppen sind deshalb die Kostensätze für die Quartale 1/2007 bis einschließlich 4/2009 identisch. Über alle Leistungserbringer sind die Kostensätze des ZI als auch des Destatis ab dem ersten Quartal 2008 aktualisiert bzw. angepasst worden. Demnach liegen die Kosten über alle Arztgruppen bei etwa 50 Prozent.

[11] Anhand der vom Bewertungsausschuss vorgelegten Daten ist eine Aufteilung auf den haus- und fachärztlichen Versorgungsbereich nicht möglich; es dürfte jedoch der Löwenanteil auf den erstgenannten Bereich fallen.

Fazit

Die Honorarreform hat zu einer deutlich höheren Vergütung der Vertragsärztinnen und -ärzte und vor allem der Vertragspsychotherapeutinnen und -therapeuten geführt. Damit steht insgesamt mehr Geld für die ambulante Versorgung der gesetzlich krankenversicherten Patientinnen und Patienten zur Verfügung. Die Honorarzuwächse fallen aber sowohl zwischen den Kassenärztlichen Vereinigungen (regionale Auswirkungen) als auch zwischen den einzelnen Arztgruppen (arztgruppenbezogene Auswirkungen) unterschiedlich aus.

Unter Berücksichtigung der Bereinigungsvolumina aufgrund von Selektivverträgen und der Auswirkungen der Laborreform zum vierten Quartal 2008 stellen sich die Honorarzuwächse für den hausärztlichen Versorgungsbereich sowie für die KVen Baden-Württemberg und Bayerns deutlich günstiger dar als bei Nicht-Betrachtung der sich daraus ergebenden honorarwirksamen Effekte. Es sei an dieser Stelle nochmals ausdrücklich darauf hingewiesen, dass im vorliegenden Bericht ausschließlich das aus GKV-Tätigkeit erwirtschaftete Honorar enthalten ist (also z. B. keine Umsätze aus PKV-Tätigkeit; keine individuellen Gesundheitsleistungen oder Umsätze aus H- bzw. D-Arzt-Verfahren).

Es stehen in 2009 bundesweit insgesamt mehr Ärztinnen und Ärzte für die ambulante medizinische Versorgung der GKV-Patientinnen und -Patienten zur Verfügung mit unterschiedlicher Auswirkung auf die einzelnen Versorgungsbereiche. Dabei werden auch je Leistungserbringer durchschnittlich mehr Behandlungsfälle in 2009 abgerechnet. Bezogen auf die Gruppe der „zugelassenen Ärzte“ wurden 2009 im Vergleich zu 2007 bundesweit 15 Fälle und im Vergleich zu 2008 durchschnittlich 26 Fälle je Arzt mehr abgerechnet bei gleichzeitiger stärkerer Bildung ärztlicher Kooperationsformen (vgl. Tab. 15, 16, 17).

Anmerkungen

1 Erläuterungen zu einzelnen Angaben

1.1 Tabelle 8: Kostensätze

In der Tabelle 8 werden getrennt nach Arztgruppen die Anteile der gesamten Aufwendungen an den gesamten Einnahmen ausgewiesen. Die Kostensätze für die Ertragsberechnung der einzelnen Gruppen werden den Untersuchungen von ZI und destatis entnommen. Der Kostensatz für die Summe Leistungserbringer wird als das mit der Arztzahl gewichtete Mittel der Kostensätze der einzelnen Abrechnungsgruppen ermittelt.

2 Änderungen von Zeitreihen im Vergleich mit Bericht zum dritten Quartal 2009

2.1 Tabelle 3: Gesamtvergütung je Versicherten nach Kassenart und kassenärztlicher Vereinigung

Durch Korrektur der Ausgangsdaten (Anzahl der Versicherten) konnte die Tabelle 3 mit Angaben zur LKK in Rheinland-Pfalz vervollständigt werden.

3 Bekannte Probleme mit Zeitreihen

3.1 Anzahl Leistungserbringer vor und nach VÄndG

Das zum 1. Januar 2007 in Kraft getretene und in wesentlichen Teilen zum 1. Juli 2008 umgesetzte Vertragsarztrechtsänderungsgesetz (VÄndG) zeigt deutliche Spuren in vielen Zeitreihen, in deren Berechnung die Zahl der Leistungserbringer eingeht. Eine wichtige Ursache hierfür ist die Zunahme der Zahl angestellter Ärzte sowie die Zunahme der aufgrund des VÄndG nun statistisch erfassten angestellten Ärzte.

3.2 Tabelle 10: Summe zurückbehaltener Beträge 20094 und Tabelle 12: Auswertung zu Mengensteuerung über RLV 20094

Vollständige und in sich stimmige Daten bzw. in sich stimmige Daten, in denen nur vereinzelt Angaben fehlen, aus dem Transparenzbeschluss (Bewertungsausschuss in seiner 183. Sitzung am 30. April 2009) liegen für drei der 17 KVen vor. Diese werden hier berichtet. Für die übrigen 14 KVen fehlen Angaben vollständig oder die berichteten Daten sind nicht hinreichend plausibel.

3.3 Anzahl Leistungserbringer in Schleswig-Holstein im 4. Quartal 2009

Es bestehen im 4. Quartal 2009 Probleme in der Übermittlung der Daten der arztseitigen Rechnungslegung für den KV-Bereich Schleswig-Holstein. Hier werden einige Ärzte nicht der richtigen Abrechnungsgruppe zugeordnet. Dies betrifft ausschließlich die Gruppen der Hausärzte und der Psychotherapeuten. Die Anzahl der Ärzte in den Gruppen der Allgemeinmediziner, der hausärztlichen Internisten sowie der psychologischen Psychotherapeuten wird hier zu niedrig ausgewiesen. Die Anzahl der Ärzte in den Gruppen der sonstigen Hausärzte und der ärztlichen Psychotherapeuten werden zu hoch ausgewiesen. Von dem Problem sind auch alle anderen Kennzahlen der genannten Arztgruppen betroffen.

3.4 Dialysesachkosten

In den Daten zur ärzteseitigen Berichtlegung fehlen für den KV-Bereich Westfalen-Lippe im Quartal 2/2009 Angaben zu den Dialysesachkosten. Dadurch werden zu den Leistungsmesszahlen „Leistungsbedarf in Euro“ und „Honorar“ die Beträge nicht vollständig ausgewiesen. Dies wirkt sich entsprechend auf die Angaben zum Leistungsbedarf und beim „Honorar für Leistungen der Kapitel 32, 40 und regional definierte Leistungen“ aus.
